

## **Job Description: Software Developer (Frontend/Backend)**

**Position:** Software Developer (Frontend/Backend)

**Location:** Remote

**Employment Type:** Full-time

### **About Us**

We are **Boron Corp**, a fast-growing software development startup on a mission to build innovative, scalable, and user-friendly applications. Our team thrives on creativity, collaboration, and a passion for technology. If you're looking to grow your career while making an impact, join us!

### **Role Overview**

We are seeking a skilled and passionate Software Developer to join our dynamic team. In this role, you will design, develop, and maintain cutting-edge web and mobile applications. You'll collaborate with cross-functional teams to create seamless user experiences and scalable back-end solutions.

### **Key Responsibilities**

#### **Frontend Developer Focus:**

- Develop responsive, user-friendly interfaces using modern frameworks like React, Angular, or Vue.js.
- Optimize applications for maximum speed and scalability.
- Ensure design consistency with branding guidelines and best practices.
- Collaborate with UX/UI designers to implement engaging user experiences.

#### **Backend Developer Focus:**

- Design and implement server-side logic and APIs using Node.js, Python, or Java.
- Develop secure and scalable database solutions (SQL/NoSQL).
- Integrate front-end elements with back-end logic seamlessly.
- Troubleshoot, debug, and optimize applications for performance.

### **Required Skills & Qualifications**

- Bachelor's degree in Computer Science, Engineering, or a related field (or equivalent experience).
- Proficiency in one or more programming languages: JavaScript, Python, Java, etc.
- Experience with front-end frameworks (React, Angular, Vue.js) or back-end frameworks (Node.js, Django, Spring Boot).
- Familiarity with RESTful APIs and third-party integrations.

- Solid understanding of version control systems (e.g., Git).
- Knowledge of cloud platforms like AWS, Azure, or Google Cloud is a plus.

### **Preferred Qualifications**

- Experience with CI/CD pipelines and DevOps practices.
- Knowledge of testing frameworks and tools (Jest, Mocha, Selenium, etc.).
- Familiarity with Agile methodologies and tools like JIRA.

### **What We Offer**

- Competitive salary and benefits package.
- Opportunities to work on exciting, impactful projects.
- Flexible working hours and remote work options.
- Professional development opportunities, including training and certifications.
- A collaborative and innovative team culture.

### **How to Apply**

Ready to build the future with us? Send your resume, portfolio (if applicable), and a brief cover letter to [careers@boroncorp.org](mailto:careers@boroncorp.org) with the subject line "**Software Developer Application (Frontend/Backend) - [Your Name]**".
