¾ We're Hiring: Software Developer (Frontend/Backend) **¾**

Ø Join Boron Corp!

Are you ready to shape the future of software? At Boron Corp, we're a fast-growing startup committed to building innovative, scalable, and user-friendly applications. Creativity, collaboration, and a passion for technology drive our team—and we're looking for skilled Software Developers (Frontend/Backend) to join us!

Location: Remote

Employment Type: Full-time

About the Role:

As a Software Developer at Boron Corp, you'll work on cutting-edge web and mobile applications, collaborating with a passionate team to deliver seamless user experiences and scalable solutions.

Your Role Could Include:

Frontend Development:

- Develop responsive, user-friendly interfaces using frameworks like React, Angular, or Vue.js.
- * Optimize applications for performance and scalability.
- Collaborate with UX/UI designers to create engaging user experiences.

Backend Development:

- Design and implement server-side logic and APIs using technologies like Node.js, Python, or Java.
- Build secure, scalable database solutions (SQL/NoSQL).
- Seamlessly integrate front-end and back-end systems.

What You'll Bring to the Team:

- ✓ Bachelor's degree in Computer Science, Engineering, or equivalent experience.
- ✓ Proficiency in programming languages like JavaScript, Python, or Java.
- Experience with modern frameworks (React, Angular, Node.js, etc.).
- ✓ Knowledge of RESTful APIs, cloud platforms, and version control systems (e.g., Git).

Bonus Points for:

- ✓ Experience with CI/CD pipelines and DevOps practices.
- ✓ Familiarity with testing frameworks and Agile methodologies.

What We Offer:

- Competitive salary and benefits.
- Flexible working hours and remote work options.
- Opportunities for growth, training, and certifications.
- A collaborative and innovative work culture.

Ready to Apply?

Send your resume, portfolio (if applicable), and a brief cover letter to <u>careers@boroncorp.org</u> with the subject line:
